

SUMMARY

Neville_02256

When I made my first application to join Gemstone University, my instincts told me not to sign the "Affirmation", and so I declined.

A few months would pass, and as I watched more interviews of what I decided were normal, professional, intelligent people speaking with Ken eagerly, I let my guard down and decided to give this man, Ken Cousens, a second chance. I watched his five 'Saint Louis University Lectures' and thought, "That's a real university, isn't it?" There was a green board behind him, and the man seemed charming. I would not say he was intelligent, and I enjoyed his humor. How could all of this be just one big lie?

Several months earlier, I'd paid Darren Clifford from DIVERGENT5 about \$650.00 for an interview, and when we got the unexpected NDA, myself and six others walked away. But we never walked away from this truly magnificent intellectual Christian man, Darren Clifford, or his magnificent and brilliant trail-blazing stoic brother, Dean. Who, in 2010, was the fundamental foundation that put me on this journey of lore. And it was the best \$650.00 dollars I'd ever spent, and in no way did I feel bad about it. Today DIVERGENT5 has absolutely worked out how to split the legal title and are showing worthy men and women how to enjoy your equity and give them back their legal title. This Ken fellow could never work this out, and from my observations thus far and his escapades with Inland Revenue, he doesn't have a clue. Even I made the ATO turn a 35K statement into zero back in 2014. But when you give the keys of an Apache helicopter to an IDIOT, it still won't get off the ground. So far, my accomplishments are far greater than Ken's. I also have the unencumbered certificate of title to my property in Queensland that I made them send me by registered post while I had a 400k mortgage. Ken does not impress me one bit. And I will soon be moving back into the beach house and will never pay rates, and I didn't need a metes and bounds survey, even though I made one long before Ken.

GEMSTONE UNIVERSITY is as much a real university as the SARS CoV2 COVID-19 deadly mRNA is a real vaccine, but ironically, what they both have in common is that they're both created by the same Ashkenazi Jews. These words come straight out of the mouth of Ken Cousins, not mine! It was truly shocking when I heard him say it for the first time. But then what really caught my attention, though, was when this man claimed that white people needed to disappear from the face of the earth and be replaced by black people. "Wow"! That is straight out of the Marxist Talmud, communist Satanic Ashkenazi Vatican Jesuit blueprint in their dream that is sadly coming true today with the help of Ken.

And, of course, these bio 4 labs have increased the stickiness of the ACE2 receptor in Caucasians to 59%, Blacks to 39%, Asians and Finish to 10%, and Ashkenazi Jews to 0%. How convenient, indeed. Well, it does seem that Ken's wish is actually coming through, and when he travels back to earth from his Galactic LSD Trip in, let's say, 200 years from now, that should do the job and he'll be able to hang out with his cousins and the remainder of the ugly Satanic white people-hating Jews. I think everyone here, in this GEMSTONE cult, needs a very good dose of Dr. Lorrain Day and not to ever consider that white people, or any race for that matter, have no place on this planet. What a disgusting way to think, but clearly, if you're bragging about being an Ashke-nazi Jew, then it makes sense that you are saying this utter shit. **Reference:** <https://www.bitchute.com/video/T4IHTRIVGdfQ/>

In court, if you say that you're the beneficiary, then that is prima-facie evidence that a trust exists and the court cannot run from this. If the respondent says there's no "Jon Doe Trust", then the respondent has just given evidence that a trust exists. "And I swear I still can not believe this even now." Ken has the fantastic nerve to tell you all that your equity is anything but funds and that "even if MM did not exist"

He just told you all that this POT OF GOLD was a bloody lie and you still do not get it.
And so, why on earth do you think that one of the questions on your stupid application was
Have you ever been in a cult?

AND YOU STILL DO NOT GET IT

Ken is making sure that he doesn't spend his life in jail and he's just ticking all the boxes he can. Yet this despicable creature makes sure that he still continues to give his truly mentally deranged new cult members, who for the last three years have been moving into the GEMSTONE STOCKYARD at one end and as fast as they can, are screaming and running out at the other end, and I totally get it.

I shake my head and it does still greatly upset me to even contemplate how many naive mothers have given this lying parasite \$10.000 chunks and more. It really does just break my heart. Only a Jew could do this because you do not belong to his tribe. He already told you who his tribe is.

Ken's well crafted plan to make you all believe "as I also did, but only for a fleeting moment" that we would be getting a \$10.000 relief fund. How truly cruel to do this to anyone and the time that we spent writing all of that shit because we all deeply believed him, just as I did. It is still quite painful, I must say.

But never so much to me than to the thousands of women who have hungry children to feed. This man and his wife, still, now, with a straight face, continue to steal from everyone and the truly laughable part of this, if any of this is funny, which none of it is. Is that the esoteric part is that he's actually telling you all in plain English that he's stealing from you and you are just not getting it? My brother bought one peach the other day, and he told me that he had to pay \$4.50 for it. And Ken Cousens is shamelessly eating the peach that my ten-year-old son should be eating. Of course Neil offered it to me.

When those rescue parties picked up a few of those lifeboats after the TITANIC allegedly sank accidentally, they expected to see only women and children on board, but I can assure you that Ken was right in the middle in a blanket eating an apple or a peach in one of those boats. I really do not think that I have ever hated anyone as much as I actually do hate this man. It really is a deep hatred I have for him, and it sits right next to Henry Kissinger, who of course just will not die.

I want my \$50.00 back from you, Ken Cousens, because you lied to me!

I also wish to send you an invoice for the hundreds of hours of my time that you stole based on your lying to me about MM (My Masterplan). As I should be compensated for my time due to your deception, when all along it was exactly what you said it would be, a cult and a kind of animal farm in the sense that animals cannot think for themselves.

And of course, those of you who are not cult members, down the road we have great Americans and Canadians working out how to make the judge your fiduciary and stay on the equitable side. Yes, you can easily purchase a property, be it a home or car, and organise those invoices to be offset against your trust account in the private, and better still, with great men like Darren Clifford, you are in a real God-dam university where you are loved and you are learning heaps.

Unfortunately, many of the members of PanTerra and GEMSTONE are in fact New Agers, and the majority of you, I would call very good people, are mostly into astrology, Tarot card reading, vibrations, and so on, much like myself these days, where I spend considerable time listening to the great Michael Tsarion. But I'm not stupid, and I will never be taken for a ride, especially by a man who brags about being an Ashkenazi Jew. And yet, sadly, 99% of you fools just can't see what he is doing. And if you're not a New Age person, then you're just a greedy idiot, and you do absolutely deserve to be here.

I can only think that this deliberate scam is firstly for their own entertainment and, of course, their greed. Ken Cousens then goes on to happily tell you all that he and his wife are both LSD junkies, by their own admittance, and believe they were around eleven and a half million years ago. I cringe at how many poor, naive, hopeful women have passed through this cult's doors and dragged their helpless children through them. It really is a sin of epic proportions.

How many struggling single mothers has this man fleeced and has literally stolen the food out of the little mouths of thousands of children? I promise you all that no real loving Christian man who believes in God, as I do, and many others, could ever do something like this, and with a straight face.

For me, as a loving and normal father with Christian values, that in anyone's book are good and beautiful, and then to be told by Ken Cousens to SHUT YOUR MOUTH, under his cone of silence? That was funny for 3 seconds, and then to watch all of you fools beat yourselves with chains like the Shea and forced to repeat psychotic mantras about what a terrible man and woman you are, it just doesn't get any sicker or more obvious than this.

There is today a wonderful South African fellow on YouTube (serpentza) who lives in China with his Chinese wife. And in one of his lectures, he explained the difference between India and China, and do you know what he said? He said that India is an incredibly religious place, and no matter how poor people are, they are happy. This is in contrast with China, where the Jews have successfully destroyed this country. Their lives are empty with no religion and no one is happy. Go get your religion, believe in your beautiful God, whoever you want him to be, and ignore the bad advice from this Ashkenazi Jew.

Finally, Ken Cousens thought everyone in his cult was so idiotically stupid that he actually had the courage to load up a pathetic YouTube of what appeared to be the American president JFK, who had his brains blown out of his head for saying "No" to the Jews and the Kissinger banking cartel, in spite of JFK's treasonous criminal father. Ken Cousens thought this was funny and that he was so confident of the stupidity of his cult members that he could make you believe that JFK had actually come back from the dead and was now asking you to support the Jewish puppet and very predictable treasonous traitor Donald Trump (real Jewish name Drumpf) and by this not only celebrate his contempt for you "GEMSTONE UNIVERSITY STUDENTS" Yeah right.. but also his utter disrespect for the great John F. Kennedy, who actually died trying to expose the Jews and their money changers, Jewish banking cartel, and people just like Ken Cousens. Again, I just cringe...

But for me, the final evil that Ken Cousens is in-fact guilty of, and that has now left an everlasting legacy of just who this man is, and that still bothers me greatly, is that he had the nerve to continue to show his hand, as I have studied many times now in his floundering performance of the opportunist that he really is, as is actually the trait of all Jews, and in spite of his very poor acting, was that this man actually hoped from the advice of anna-von-reitzinger, who was revealing that it was most likely that a nuclear bomb would go off in New York, and exactly why all the Jews were leaving New York for this very reason.

And so, like every other event that this truly pathetic idiot, Ken Cousens, predicted would happen on any given day, it did not. This Monster was now declaring, without attribution, that after the next catastrophic false flag nuclear bomb would go off in New York, and if he was correct, wouldn't he just be that High Priest who stood at the top of that pyramid and told his people (stupid peasants) that the moon would now eclipse the sun? It's mind-boggling to think that this man, Ken Cousens, was willing on and promoting the idea that a nuclear bomb would detonate in New York, killing millions. This was actually his mantra and Ken's secret wish, that he was willing it to happen.

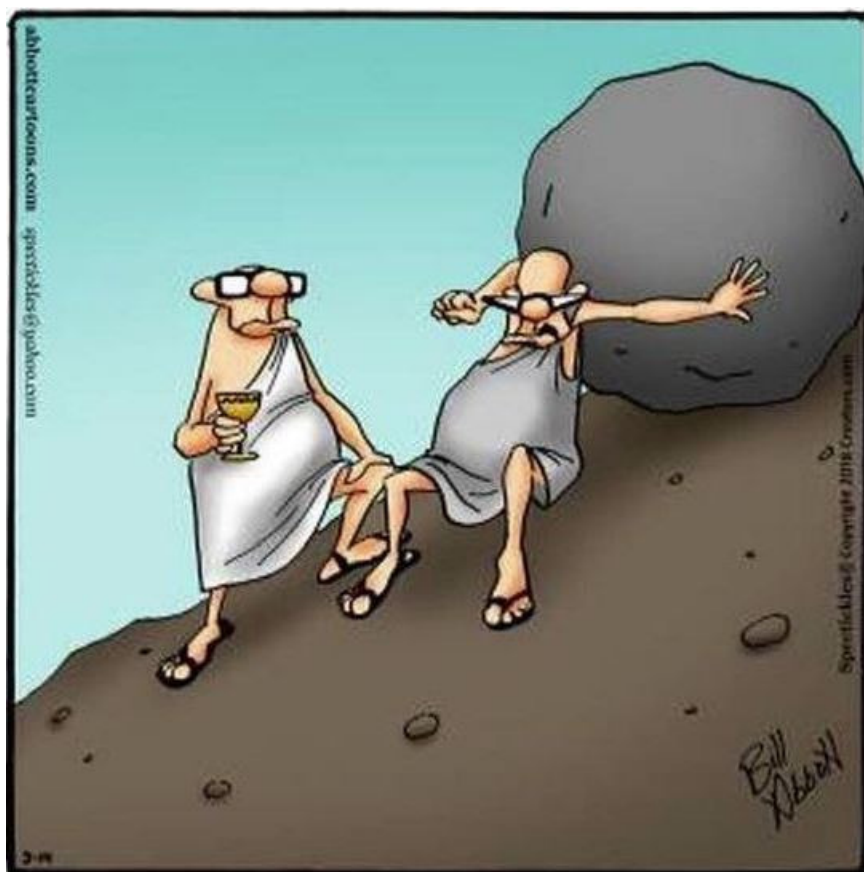

I finish by remembering that the great Christopher Hitchens once exposed another ugly Jew in the former president of the United States, Bill Clinton. When Christopher wrote his book "No One Left To Lie To," newspaper headlines would read: **World: Africa, Factory Bombing: A Matter of Evidence.** The Jew Bill Clinton deliberately bombed a pharmaceutical factory that was working for the poor of Sudan for one reason only, and that was to blow up that factory to deflect the event that Monica Lewinsky was going back to the Grand Jury that day. I want a nation of workers, not thinkers, for Ken Cousens to will, hope for, and manifest his prediction that a nuclear bomb would detonate in New York and thus become the HIGH PRIEST of the filthy little GEMSTONE cult of mindless Rockefeller slaves.

So if you fools think that in the 'big boys club' on an aircraft carrier somewhere in the pacific ocean, they have a seat for a self-attested LSD junky, cocaine drug addict and creep like Ken Cousens on their round table next to the bloodline elite, then you're an utter and absolute idiot.

I say to Ken Cousens that you must stop stealing money from my tribe of white people and other races, and that you find the courage to now tell them all the truth; That you are a compulsive liar, and that your MM (My Masterplan) was a fraud from the beginning, and that you are sorry. That would be a good start.

I remember that I was so excited when I joined GEMSTONE UNIVERSITY, and I bragged to all of my friends that I was now in a real university. And to think, that today, this was one of the most horrible experiences that I have ever experienced, and especially when I think about those poor helpless vulnerable innocent children that have not only been deprived but harmed at the hands of Ken Cousens.
